-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4, 7-10, 12, 13, 15-17, and 19-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Kruger et al #2002/0044833. Kruger et al, paragraph [0021], discloses a leaching chamber having a lengths between 2-10 feet and lengths of 4-8 feet being preferred. The nature of the shorter length chambers would allow for an increase in curve factor and to increase the number of joints for a given length of chamber string.

Kruger et al, paragraph [0023] discloses the use of a multiplicity of perforations 9 for attaining desired leaching capabilities. Furthermore, Kruger, paragraph [0036] discloses placing the chambers underground in a hole having a width and length consistent with the number of chambers desired i.e. a trench.

### ***Response to Arguments***

3. Applicant's arguments filed 4/18/06 have been fully considered but they are not persuasive. Applicant's argue that the chamber of Kruger is for stormwater and not leaching and that the chambers are not placed in trenches. However, as stated above, the chambers are also used for leaching and these chambers may be placed in a hole i.e. trench having a width and length consistent with the number of chambers being

used. Furthermore, Kruger discloses chambers which may range from 2-10 feet preferably 4-8 feet to facilitate handling and installation for example.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
